- Holster shaped interior allows the part to collapse more completely, for assembly with just **fingertip pressure**.
- Tapered, bullet-style point **slides easily** into any mounting hole.
- Angled panel locking section **takes up slack** to provide for a tight assembly.
- The design allows for a relatively large clip-diameter-to-hole-size ratio, resulting in **higher retention force**.
- Consult Heyco for other mounting hole and panel thickness **variations**.
